BISHOP FEILD COLLEGE.

BOARD OF DIRECTORS.

(As appointed by His Excellency the Governor in Council, Oct. '08)

The Rt. Rev. The Lord Bishop of Nfld., Chairman, ex officio.
Rev. Canon White, A. J. Harvey, Esq.
Rev. H. Uphill, W. S. Monroe, Esq.
Sir J. S. Winter, K.C.M.G., F. W. Hayward, Esq., Hon. As. Tr.
Hon E. R. Bowring, Hon Tr., J. W. Withers, Esq.
J. A. Clift, Esq., D. M. Browning, Esq.

TEACHING STAFF, ETC.

H. J. Bishop, A.A.
G. House, A.A.
C. E. A. Jeffery, (London University).
I. G. Samson, A.A.

Preparatory Dept: Miss Pinsent.
Miss Strait, A.I.

Typewriting: E. Pinsent

Music & Singing: H. W. Stirling, L.L. C.M.

Visiting Chaplains: Rev. Canon Dunfield, (Rectory, St. Thomas's)
Rev. Canon White, (Rectory, Cathedral).
Rev. H. C. Barton, (Principal Queen's Col.)
Rev. J. Brinton.

FORM MASTERS: Upper VI, Mr. Bernard; Lower VI, Mr. Samson; Upper V., Mr. Jeffery; Lower V., Mr. McBain; Form IV., Mr. House; Form III., Mr. Bishop.

Warden: The Headmaster.

Medical Attendant: Dr. T. Anderson.

Lady Superintendent: Mrs. A. C. F. Wood.

The Headmaster can see Parents or other callers between 9.30 and 10; at other times by appointment only.
Bishop Feild College.

Is the Church of England College for boys in Newfoundland. It provides a thorough education for boys from the Kindergarten to Business or to the University.

TUITION FEES.

1. College Proper: From $4.50 to $6.50 per term, according to Boy's Form, books and stationery provided free of charge.

2. Preparatory School: From $2.00 to $3.00 per term, books and stationery provided by parents.

Each boy is required to provide himself with a B.F.C. Mark Book (10 cents) which becomes his own property, and to join the Games Club—subscription varying, according to Form, from 10 to 20 cents a term.

HOSTEL BOARDING FEES.

Board and Lodging, per term .................. $37.50
Laundry, $3.00; Seat in Church 50 cents; Medical Advice and Medicine for temporary illness, 50 cents; Pocket Money (10 cents a week—$1.00); Library and Feildian, 30 cents; Games Fund, 20 cents; Cadet Corps, 50 cts.; Hair-Cutting, 10 cents. Per Term .................. 6.10

Total per Term .................. $43.60

NOTE 1.—An Entrance Fee of $10 is charged at the beginning of a boy's first term.

NOTE 2.—Boarders may remain in residence during the Christmas holidays on payment of $8.00.

EXTRAS—ALL OPTIONAL.

Typewriting - Complete course of lessons $7.00; Practice on College Typewriters, $1.00 a term; Manual Training, 25 cents a term; Practical and Conversational French, $2.50 a term; Use of Science Laboratory including apparatus and material, $2.50 a term; Piano, fees according to Teacher's charges; Practice on the College Pianos, $1.00 a term; Home lessons under supervision with the Boarders, $2.00 a term.

ADMISSION.

Boys are admitted to the Preparatory Department when they have completed their fifth year, or earlier if thought physically fit by the Headmaster.

COLLEGE TERMS.

There are four terms in the School year—Michaelmas Term, Christmas Term, Lent Term and Trinity Term. These end respectively in November, February, April and July and contain roughly 10 working weeks each.

PAYMENT OF FEES.

Fees are due in advance, on the first day of the term.

NOTICE OF REMOVAL.

When a boy is leaving the College, either one month's notice or half a term's fees will be required.
Boys school Outfits can be bought from us at lower prices than from any other house in the trade; and we always carry the best assorted stock of the following goods:

**HARDWARE**

of all kinds.

- Paints, Oils, Varnishes, Room Papers, Carpets, Floor Canvas, Boots and Shoes, China and Glassware.

**DRY GOODS**

In Endless Variety. Always Newest Styles.

**GROCERIES & PROVISIONS.**

If you want to save money get our prices before buying.

Mr. C. E. HUNT, Secretary F. S. A.,
New Gazette Building, St. John's.
THE NEW SCHOOL YEAR.—The prospects for a successful year are most promising. As the College increases in numbers one cannot but feel that it shows the healthiest of all signs—that of growth. It is of course more important that the quality of our work should improve each year, but it is doubly encouraging to feel that steady progress is being made as regards both quality of work and quantity in numbers of boys.

Boys who have left us to begin the work in the world for which the College has been preparing you, in most cases, for many years!—you are our latest representatives outside the College. It rests with you to create either a good or a bad impression of B.F.C. We look to you to prove that the old school has never turned out better material in the past than it does now, and we have confidence in your ability to show that Feildians are trained to be manly and straight, energetic and persevering, capable of self-sacrifice in a good cause yet able to hold your own amongst your fellows. The world may seem to give you more freedom from vexatious restraints than you enjoyed when at school. It will allow you, if you choose to do so, to get into foolish and harmful habits; but it will kick you when you are down and punish you much more severely for your indiscretions than the School ever did. On the other hand if you do good work, if you live up to what you know to be right, if you show that you respect yourself and others, you will in time win from the world as much as you are worth of prosperity. We wish you every success in your various callings. We hope that you will keep up your connection with the College through the Old Feildian Club and the Feild-Spencer Association and that you will always look back with pleasure and affection to the years you have spent with us. Many of you will be in St. John’s and we shall be able to keep in touch with you. Others of you will be scattered, and to these we offer a means of communication in THE FEILDIAN. We should like to hear from any Old Boys as
we have already heard from Robertson who is studying at Toronto University, from Robins and Norris who are teaching, and from Duff who is in business in Harbour Grace. It may not always be possible for us to answer letters promptly, but we hope to be able to keep up some sort of correspondence with those of you who will write to us. We thank Robertson, Norris and Duff for their letters and Norris for his telegram on the King's Birthday.

To the Boys who are with us we would say: 'Make the most of your schooldays: Try to realise that you are 'at work' now. As a matter of fact just as your training for a game or for an examination is of the greatest importance, so your training for whatever you mean to do after leaving school will produce good results or bad according to your energy and steadfastness during that period of preparation. Don't imagine that 'having a good time' means doing no work. Those who are idle and neglect their work have anything but a good time; while those who work hard and play hard are the boys who get by far the most enjoyment out of their life at school. Remember that you are part of the College, that what you do and what you are affects the whole school to some extent. Try to make B.F.C. a finer place than it would have been if you had not come to it, and by this means you will benefit not only the College but yourself. 'Go in' for everything that is going on—work, games, the College Company, Debates and the many other opportunities that are offered to you for improvement and for enjoyment. If 'unpleasantnesses' occur, have the good sense to prevent repetition of them by avoiding the offence that caused them. Those of you who are older must not shrink from using your influence for good. There are many good fellows who hesitate to interfere when something is being done which should not be allowed. To these I would point out that it is a sign of weakness to fail to use their superior intelligence and experience for the welfare of the school to which they belong and that there is a modesty which borders upon cowardice. The witness of a murder might fail to interfere because it is not his business; the witness of any action harmful to the school who fails to interfere is responsible for helping to kill the good name and good influence of the institution to which he himself belongs. If you wish to be loyal to the College you must be ready, even though the duty be unpleasant, to assume the responsibilities of a senior boy in the College.'

The Parents.—We sincerely thank the parents for the confidence they have shown in the College. There are very few parents now—if any—who expect unreasonable things of us. We
do what is possible for backward or troublesome boys so far we can without causing the rest of the Class to suffer. A private tutor for a boy would cost about a thousand dollars a year. No reasonable parent therefore expects a master to devote all his time to any one boy. The few changes that have been made of late have all been of immense advantage to the College and have harmed no one. The prompt payment of fees, the small extra charge for the school games and other apparently insignificant alterations, have produced much good. The Home Lessons, necessary as they are, have been better done, and the Mark Books are apparently causing parents to take more interest in the work of their boys. These Weekly Report Books enable a parent to see exactly how his boy has done during the previous week. They have to be signed at home every Monday night and handed in to the Headmaster for inspection every Tuesday.

IMPROVEMENTS.—Although the income of the College is barely sufficient to cover ordinary running expenses several expensive improvements have been made since last year. A new furnace has been installed capable, according to the maker’s guarantee, of heating twice as much radiating surface as the College possesses. Gas radiators have been put in the coldest class-rooms to enable them to be thoroughly warmed during the earlier hours of the school days—a task which the old furnace was unable to accomplish in cold weather. A sliding partition has been put up to divide the College Hall into two large class-rooms and the darker end of the Hall has been provided with four additional windows. The College Lavatories have been almost doubled in size and where necessary have been improved from a sanitary point of view. All these improvements have been rendered possible owing to the fact that even from a financial point of view last year was a very successful one. This was largely due to the fact that we had no bad debts, owing to the new rule making payment of fees in advance compulsory. The small balance that we had has been swallowed up over and over again by the improvements made, but it is hoped that this year will be even more successful financially than last. It is also hoped that the Feild-Spencer Association will enable the Board to meet some of the expenses incurred. Substantial improvements such as these might well find a place on the list of benefits conferred upon B.F.C. by the F.S.A. We know that the whole future of the College depends upon the activity and success of our friends of the Feild-Spencer Association.

EXTENSION.—The present demand for more space has been met by utilising the Hall as Class Rooms. The partition that has
been put up can be folded back against the walls so as to enable us to throw two rooms into one at a moment’s notice. But this is merely a temporary removal of our difficulties. By reference to the College Roll on another page it will be seen that our numbers are steadily increasing. The one extra class-room has made it possible to divide the Fifth Form which contained fifty boys into two sections. We are still without a Gymnasium or Recreation Room which is so necessary in wet weather. We have no room available as a Science Room where apparatus may be kept and experiments properly performed. The Lower Sixth and Fourth Form rooms are full. If there is to be further growth in numbers there must be further expansion, and if there is to be no further growth, whose children are to be refused admission? This is a question which will have to be faced in the near future. The additional pupils will not do more than cover the cost of additional masters and equipment. While growth is a matter for satisfaction it brings with it the grave difficulty of providing class-room space. It is quite possible that we shall have twenty additional pupils next year. Where are we to put them? To wait until we are actually face to face with the difficulty will mean that these twenty will go elsewhere. The only possible solution of the problem is that the Feild-Spencer Association will provide sufficient funds to justify the extension of the College buildings.

The Games.—While our Football season was not successful to the extent of enabling us to claim the Inter-Collegiate Championship, the B.F.C. team has no cause to be ashamed of its work. Play improved remarkably as the season went on, and in its last game with the Championship winners our team succeeded in playing a drawn game and scoring the only goal for the season against the present holders of the Cup. We heartily congratulate the Methodist College upon their success and upon the excellence of their play. Our team was too uneven to combine well, and paid the penalty of trusting too much to two or three of its players. Tait, Joyce, Robertson, T. Winter, F. Jerrett and Shaw all played a good game, and the team as a whole improved very much before the end of the season. The Steeplechase had to be postponed owing to the weather being unsuitable for practice. The College Company is larger than ever this year and ought to do even better than last year. The Right (Boarders’) Half Company has again won the first of the Competitions between the two Half Companies, but by a very narrow margin of points. The Day Boys should be able to reverse this result by the time the next competition takes place if they will work together with this aim.
Rhodes Scholarship.—For the second time the College has obtained the Rhodes Scholarship, R. H. Tait, the Captain of the School, being the fortunate winner. We venture to say that the choice could hardly have fallen upon a more suitable candidate. For years Tait has been a leader—the leader—amongst the boys of the College. In work, character and athletics he was *facile princeps* of our boys. We feel the utmost confidence in his ability and determination to make the best possible use of this great opportunity for which his training here has so thoroughly prepared him. He is taking the right steps to enable him to compete on equal terms with the ordinary Law Student at Oxford by specialising for a year in such subjects as the earlier part of the Oxford Law Course demands.

THE FEILD-SPENCER ASSOCIATION.

On November 1st the Association held a most successful Variety Entertainment in the British Hall. From 8 to 9 o'clock a Play and Concert were given in the Upper Hall—the former by Mrs. Gosling, Miss Bright and Miss Mary Rendell, and the latter by Mrs. Job, Miss LeMessurier and Messrs. Mawer and O'Reilly. Both performances were received with the hearty applause which they deserved. The very large audience then proceeded to amuse itself with games of all sorts under the management of a number of the members of the F.-S.A. A candy stall and ice-cream stall proved most popular as did the Post Office with its somewhat embarrassing letters. From 9.30 onwards supper was served and if one judged by their excellence those ladies who provided them were deserving of the heartiest thanks of their "paying guests." The evening was in every way a complete success. We sincerely thank all those who were so good as to devote their time and attention to the preparations and who so generously provided the materials for a most enjoyable evening. The net proceeds amounted to over $260.00.

The following has been received from Mr. C. E. Hunt, Secretary of the F. S. A.:

"We append herewith a list of the members of the Feild-Spencer Association to the end of last November. Every effort has been made to make the list as complete as possible but it may be that one or two names have been omitted. The list is a long one and shows that the inauguration of the Association was a move in the right direction. The results have justified the splendid work which the officers have done on its behalf and we feel convinced that the excellent start that has been made is sufficient to assure the Association a long and useful life.

"The Officers and Council deserve special thanks for their kind efforts on behalf of the Colleges. Several dances, entertainments, etc., have been organized and successfully carried out, and before the annual meeting they hope to hold a series of lectures to be given by some of the most talented gentlemen in the city.

"The assistance and good-will of every friend of the Colleges will help them much. There are hundreds of really good friends of both Colleges who are not yet members of the Association. Let these join the Association and help it even a little in the direction in which they best can. We are convinced that the small sum of fifty cents (the amount of the annual subscription) could be given to no more deserving charity than that of helping forward the great work of education."

The Annual Speech Day held this year on Dec. 21st was most successful. The programme was as follows:

God Save the King.
Drill—The College Co.
Pianoforte Selections—F. Duder, F. Emerson.
Operetta—"Breaking Up."
The Lord Bishop of Newfoundland Takes the Chair.
Distribution of Prizes—Preparatory Dept.
Headmaster’s Report.
Report of the Superintendent of Education.
Distribution of Prizes—The College.
Vote of thanks to His Excellency the Governor.
College Cheers.

Everything went well except that one of the chief soloists in the Operetta was unfortunately unable to do more than struggle through his part owing to a very severe cold. The Drill was excellent and the Operetta most amusing and very well done.

His Excellency the Governor spoke very forcibly as to the necessity for the thorough training of boys for the strenuous life of to-day. His remarks dealt particularly with the splendid opportunity that boys in the Colonies now possess especially in connection with the Rhodes Scholarship. Having had intimate connection with Mr. Rhodes in South Africa, His Excellency described in a most interesting manner the greatness of the man and of his aims. He spoke of the value to the Empire of such fine characters and he exhorted Feildians to endeavour to realise their responsibilities as members of the Empire and subjects of King Edward. His Excellency ended by proposing three cheers for R. H. Tait, the College Captain, who had so recently been awarded the Rhodes Scholarship for the year.

The Superintendent of Education, Mr. Blackall, having congratulated the College upon its good work during the past year went on to speak of the needs of the Church of England Colleges and particularly of Bishop Spencer College.

The Headmaster reported on the year’s successful work. The College had never before passed so many candidates in the C.H.E. Examinations. R. H. Tait, the College Captain, had just been awarded the Rhodes Scholarship for 1910. A recent Old Feildian, Brian Dunfield had greatly distinguished himself by obtaining the B.A. degree of London University with First Class
Honours in Philosophy. In Athletics the College had had a successful year, winning the Inter-Collegiate Hockey Championship and playing a much improved game of Football and Cricket. An increasingly large number of boys were joining in the College games and more field space was very necessary. The College Company had covered itself with glory by winning the Rendell Shooting Shield, the Stabb Memorial Cup for the best half company in Avalon Battalion and, most of the events in the C.L.B. Sports held in the Armoury in the spring.

The successful inauguration of the Feild- Spencer Association, formed for the purpose of assisting Bishop Feild and Bishop Spencer Colleges encouraged one to hope that before long the extensions necessary to accommodate the increasing numbers of pupils would be possible. The various needs of the College were mentioned and the improvements that had been made during the past year were stated. Everything pointed to a period of growth and success as having begun. It was for the friends of the College to decide whether this should be checked or whether an effort should be made to provide funds for further additions to and improvements in the College buildings.

The Prizes were then distributed, a vote of thanks to His Excellency, Sir Ralph Williams, was carried by acclamation, the usual College Cheers were given and Speech Day 1909 was at an end.

(The Headmaster's Report will appear in full in the next issue of The Feildian.)

PRIZE LIST, 1908-09.

A.—INDUSTRY.

[These prizes are awarded to the boys who have obtained first place in the year's Class marks and Terminal Examination marks combined. They are of necessity won by those who have worked most steadily and conscientiously and who have at the same time displayed most ability.]

DONORS OF PRIZES

The College heartily thanks those who have so generously provided the prizes. It must be gratifying to find so many ladies and gentlemen so willing to offer encouragement to the boys who have been most successful during the year.

The following is a list of the donors of the prizes:

The Life of a Newfoundland Fisherman.

In every respect the life of a Newfoundland fisherman is dangerous and uncertain—dangerous because the greater part of it must necessarily be spent upon the sea, and uncertain because the product of the sea, upon which a fisherman's livelihood depends, is uncertain.

Of Newfoundland fishermen there are three classes. They are the Labrador fisherman, the Bank fisherman and the "Shore" fisherman—the man who fishes from the coast.

The first class begin to get ready about the first week in May usually and leave for the Labrador about the first of June. In the interval the schooners are fitted out and a voyage to St. John's is taken for the purpose of getting a supply of food for the summer.

When the Labrador is reached the fishermen employ different means of taking fish. The chief are the trap, the cod-net, the cod-seine, and the hook and line. From early morning until late at night the fishermen toil until they have loaded their vessels. The fish is then "cured" and sold on the Labrador or is being brought home and there cured.

The second class—the Bank fishermen—begin fitting out about the same time as the Labrador fishermen. They fish on the Banks of Newfoundland. The trawl is the means they employ. Often they bring home loads of four or five hundred quintals three or four times during one summer. Their life is more beset with dangers than that of the Labrador fishermen. Owing to the prevalence of dense fogs, they run the risk of being separated from their vessels and of getting run down by the ocean steamers.

The shore-fishermen lead the least dangerous lives. Every morning they put out in small boats and go off the coast usually about three or four miles; in the evening they return. They use all the means employed by both the Labrador and the Bank fishermen.

In winter, a fisherman's life is practically uneventful. Some go to the seal fishery during the months of March and April.
Between October—the end of the fishing season—and March they spend their time chiefly in repairing their fishing gear.

When there is plenty of fish and a good price is given for it, the fishermen live comfortably; but, when fish is scarce and the price low, it is the very opposite with them. Often families have no food and have to go for help to the Government.

On the whole a fisherman’s life is a very hard one but if fish is plentiful, it is a contented one.

**INTER-COLLEGIATE FOOTBALL, 1909.**

The Inter-Collegiate football season is now over, and resulted as follows: 1st, Methodists; 2nd, Feildians; and 3rd, St. Bon’s; so that on our year’s athletics we have done very well—won the hockey championship, came second in cricket and defeated the champions in one match, and came second in football, drawing with the champions in one match.

We congratulate the Methodists very heartily on their success in winning the championship this year, for this is the first year they have found themselves at the top of the table for some time past. As for ourselves, there is no doubt that our fellows made a good fight of it all through, but lack of experience manifested itself, and a team composed for the most part of entirely new material cannot be expected to show the best of form for the first year.

In our first match—M.C. vs. B.F.C.—we lost by 3—0, although a fair share of the game was ours right through the match. The St. Bon’s also succumbed to the Methodists by 2—0, and in our match with the St. Bon’s, we succeeded in defeating them 3—2. Thus ended the first round. The result of the second round was practically the same as that of the first: the Methodists defeating both the St. Bon’s and ourselves 1—0 and 2—0 respectively; the St. Bon’s, however, managed to make a draw with us, 1—1. The play of our team was considerably better in this round than in the first, and was even more so in the third round, when we managed to draw with the champions, 1—1, and defeat St. Bon’s 3—1, thus being placed second in number of points at the end of the season.

One thing made itself conspicuous in the Inter-Collegiate games this year, and that was the unusual number of penalties given against each of the teams, there being no less than two given in each of two or three matches.
A brief summary of the whole:

<table>

The Inter-House football matches resulted in a win for the day-boys, who won the two matches played. The first match was rather one-sided, the day-boys winning easily by 5—1. The second match, however, although resulting in a win for the day-boys, looked as though a third match would be necessary to decide the championship.

Extracts from the Merchant Shipping Act referring to the Naming of Ships

Regulations made by the Board of Trade, in conjunction with the Commissioners of Customs, under Section 50 of the Merchant Shipping Act, 1906.

Under the provisions of Section 50 of the Merchant Shipping Act, 1906, the Board of Trade, in conjunction with the Commissioners of Customs, hereby make the following Regulations relating to ships' names, and direct that they shall come into force on 1st January, 1908:

1.—Any person who proposes to make application for the Registry of a British Ship shall give notice in writing of the proposed name of the ship to the Registrar of Shipping at the intended Port of Registry at least fourteen days before the date on which it is contemplated to effect the registry.

7.—When it is proposed to register the ship at a port not situated in the British Islands, the Registrar to whom the name is intimated may proceed with the registry of the ship if he satisfies himself that the name does not appear in the Current Mercantile Navy List; but if the name does so appear, the Registrar shall transmit the applications to the Registrar General of Shipping and Seamen, and the case shall be treated in the manner laid down for registry in the British Islands.

H. W. LeMESSURIER, Registrar of Shipping.

Rates of Commission on Money Orders

The Rates of Commission on Money Orders issued by any Money Order Office in Newfoundland and to the United States of America, the Dominion of Canada, and any part of Newfoundland, are as follows:

For sums not exceeding $10................. 5 cents
Over $10, but not exceeding $20............ 10 cents
Over $20, but not exceeding $30............ 15 cents
Over $30, but not exceeding $40............ 20 cents
Over $40, but not exceeding $50............ 25 cents
Over $50, but not exceeding $60............ 30 cents
Over $60, but not exceeding $70............ 35 cents
Over $70, but not exceeding $80............ 40 cents
Over $80, but not exceeding $90............ 45 cents
Over $90, but not exceeding $100............ 50 cents

Maximum amount of single order to any of the above countries, and to offices in Newfoundland, $100.00; but as many may be obtained as the remitter requires.

Reduction of Letter Postage

The charge for Letters addressed to all places in the British Empire and the United States of America is now two cents per Whole Ounce.

The charge for letters addressed to all other countries of the Postal Union will be Five Cents for the First Whole Ounce and Three Cents for each additional ounce, or fraction of an ounce.

Reduction of Postage on Periodicals to and from United Kingdom and Newfoundland.

The British Post Office has reduced the rate on periodicals exchanged with Newfoundland from 8 cents per lb. to 2 cents per lb., but Newspapers weighing not more than 2 ounces are transmissible as heretofore for one halfpenny (one cent) The limit of weight is 5 lbs.; length, two feet; width or depth, one foot. Such packets must contain nothing but Newspapers, Magazines and Trade Journals.

H. J. B. WOODS, Postmaster-General.

NEWFOUNDLAND
THE TOURISTS' PARADISE

Out of Beaten Track of Travel, this Country appeals irresistibly to the most blase of Globe Trotters.

OPPORTUNITIES FOR SPORT UNRIVALLED IN NORTH AMERICA—Salmon and Trout Streams easily accessible; filled with Gamey Fish.

SCENERY MOST ENCHANTING—
Majestic Headlands and Fjords, Screen Valleys of Sylvan Beauty.

A Trip to Newfoundland is an Epoch in the Life of the Tourist. One Visit means many.

COMFORTABLE HOTELS IN EVERY SETTLEMENT.
Shooting Bungalows within Easy Reach of the Lordly Caribou.

THE FINEST GAME IN THE NEW WORLD.

PROFICIENT GUIDES to be had at every Sporting Resort. Government and Railway Officials ready to Cater to Tourists' wants.

NEWFOUNDLAND has been called the NORWAY of AMERICA, but the comparison does not fully describe the Charms of this ISLAND IN THE SEA.

Its Scenery is more entrancing than that of Norway, and its Summers Longer and More Salubrious. The Island is easily reached from North Sydney, N.S.

ONLY 6 HOURS AT SEA.

The Newfoundland Government will gladly furnish any information which the prospective Tourist may desire.

EVERY HELP AND SERVICE RENDERED TO VISITORS.

Newfoundlanders are proverbially Hospitable and aim to make the stay of the Visitor as pleasant as possible.

INFORMATION as to Sporting Resort Rates, etc., may be had by applying to any Steamship Company, or from

SYDNEY D. DLANDFORD,
Minister of Agriculture and Mines.

ST. JOHN'S, NEWFOUNDLAND.
Regulations as to the taking of Trout and Salmon.

No person shall catch, kill, capture or take any salmon, trout, or inland water fishes, in any river, brook, pond, stream, lake, or estuary in Newfoundland, by means of other than rod, hook and line.

No person shall use any appliance other than rod, hook and line to catch any salmon, trout, or inland water fishes, within fifty fathoms from either bank on the strand, sea, stream, pond, lake, or estuary debouching into the sea.

The Department of Marine and Fisheries may place caution boards at a greater distance than fifty fathoms from the point of debouching as aforesaid, wherever, in the opinion of the department, geographical conditions may render the same necessary. The placing of such boards at any such points shall be deemed to be prima facie evidence of notice, and shall place the burden of proof, as to lack of notice, upon the party charged with a breach of anything hereunder.

No person shall, by spearing, hooking, sweeping, jigging or raking, or hauling, with any net or seine, take, or attempt to take, any salmon, trout, or inland water fish within this Colony.

The use of lime, explosives, or other deleterious compounds for killing or catching fish of any description, shall at all times be prohibited in all inland and coastal waters of this colony.

In every mill-dam, rack, or framework, erected or built across any pond, river, lake, brook or stream, where salmon and trout have been known to enter, there shall be placed, subject to the approval of the Department of Marine and Fisheries, a proper pass-way or fish-ladder not less than four feet in width, capable of allowing salmon or trout of any size to enter above.

Any logs or timber of any description which may be placed so as to impede the passage of salmon or trout in a pond, river, lake, stream, estuary or water-course, shall be instantly removed; and no saw-dust or mill rubbish of any kind shall be cast into any pond, lake, estuary, river, brook, stream or water-course.

No net shall be moored or set near any part of the coast of this colony or its dependencies for the purpose of taking salmon nearer to any other salmon net previously set or moored for a like purpose than one hundred yards for a single net, nor three hundred yards for a double net or fleet of nets.

No person shall catch, kill, or take any salmon or trout in any river, brook, stream, pond or lake in Newfoundland, between the 15th day of September in any year, and the 15th day
